Following the suggestion of some of my readers, I just created a Yahoo Group / Mailing List for ajaxCFC. This group may facilitate the communication among ajaxCFC users, sharing, discussing, requesting help, or _showing off_.

<http://groups.yahoo.com/group/ajaxcfc/>

On a different note, I updated the L&F of the examples and added a couple more. I am also working on blowfish encryption to allow for secure data exchange. If any of you are cryptography experts, I could definitely use your help :)
