

# Cairngorm Project Moves to Adobe Open Source

Posted At : August 10, 2008 9:52 PM | Posted By : Rob Gonda

Related Categories: Adobe, Flex

The Cairngorm project, lightweight micro-architecture for rich Internet applications built in Flex or AIR, is now hosted on the [Adobe Open Source website](#). Milestone builds, documentation, and the latest source code are available for all to use. Cairngorm is now evolving towards a project that will invite community leaders and enterprise adopters to partner with Adobe Consulting in the ongoing development of Cairngorm.
